EASE OF USE

User Friendly & Compact

Designed for ease of use in your small office environment, the MF8350Cdn provides access to the control panel, supplies and paper sources right from the front of the unit. Now, there is no need to reach around to locate your prints or change the consumable.

Intuitive Scanning

Enjoy stress-free scanning with simple installation and easy operation. Customize your scanning needs in advance to transmit a scanned image directly into a network folder, a bundled document management and OCR software program, or as an email attachment. You can even output in Canon's business-friendly high compression PDF mode, which reduces file size without compromising image quality.

Large LCD with Graphic Display

The 5-line LCD with graphic display, provides outstanding usability. Guided user animation within the display simplifies once complex tasks with illustrated on-screen instructions.

Networking

The MF8350Cdn supports USB 2.0 and 10/100 Base-T Ethernet as standard interfaces, allowing the device to be shared by one or many. A remote user interface (in the form of a web browser on a networked PC) with separate system manager and end user modes, provides you the further freedom to manage your device remotely.

AMAZING IMAGING PERFORMANCE

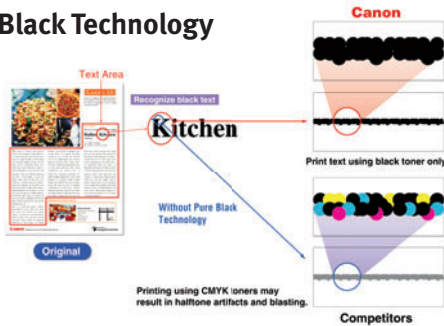

Superior Color Imaging

The Superior Color Imaging technologies built into the

MF8350Cdn capture fine details with remarkable tone-on-tone clarity, helping images stay true to the original.

Pure Black Technology

Pure Black Technology helps to ensure the richest blacks by utilizing only the black toner when printing, copying, or scanning, in comparison to traditional methods of combining toner colors.

Auto Gradation Adjustment

The Auto Gradation Adjustment automatically adjusts the gradation, color and density in accordance with the ambient temperature and humidity for more consistent output quality.

Background Removal

Revitalize old documents with the background removal tool. Automatically erasing the aged or antiqued background during copying and scanning, it leaves you with the content you want without the look of a discolored document.

ENHANCED FEATURES

Duplex

The MF8350Cdn features an Auto Duplex Function which allows you to print, copy, fax or color scan from one-sided originals to produce two-sided output with ease, cutting your paper usage as much as half.

Scan to USB

Carry your important information with you by saving scanned documents to a USB removable media. Connect the USB removable media to the USB port located conveniently in the front of the machine to scan your letter-, statement- or legal-sized documents.

ID Card Copy

This new feature is ideal for maintaining records of your identification cards or other small two-sided documents. Easily scan identification cards, driver licenses, visas, and insurance cards to keep your files organized and efficient. You will be instructed how to align your card on the platen glass and when to turn your card over to print onto one page.

Searchable PDF

Searchable PDF creates a PDF file by converting the scanned image to searchable text data. When a document is scanned into a PDF file, the text portion is extracted through OCR. The text in the PDF file can then be searched, allowing you to easily find information located in the PDF file.

Auto Fax Forwarding

You can set the MF8350Cdn to forward your received fax documents to a fax number or fax group. Your gain is enhanced document control; you can ensure your received faxes reach the right hands automatically and efficiently.

ENVIRONMENTALLY CONSCIOUS

Energy Saver Mode

The intelligent Energy Saver Mode reduces your power consumption to approximately three watts of energy and meets Energy Star guidelines, helping you save money on energy costs.

Generation Green

The MF8350Cdn is part of Canon's Generation Green program which highlights the company's commitment to sustainability.
