Built for Business

- Built for heavy-duty printing. Buyers Lab Inc., the imaging industry's leading independent test lab, successfully ran 20,000 pages jam-free. ¹
- Ideal for multi-user workgroups; provides the flexibility of networking via Ethernet or wireless-N. ²
- The intuitive 4.3-inch color touch screen provides an easy-to-navigate menu system that shows you what you need only when you need it.
- The USB port allows for convenient walk-up printing of many popular file formats, including PDF and JPEG, without the use of a PC.
- Easily load different types of paper with the optional 550-sheet tray that boosts input capacity up to 850 sheets or 75 envelopes. ³

Professional Quality Output

- Print documents with the crisp text quality of a laser and the vivid detail of an inkjet.
- Make a lasting impression on customers and do more in-house printing with smear-resistant Vizix Pro inks.
- Print documents on a variety of specialty paper, including card stock, labels and envelopes; accommodates paper sizes up to 8.5 x 14 inches.

Productivity and Savings

- The Pro5500 includes the features you need and a 50% lower printing cost on laser-quality documents. ⁴
- Fewer supplies replacements with high-yield cartridges. Cartridges yield up to 2,500 pages in black and 1,600 pages in color. ⁵
- Prints faster than most similarly-priced color laser MFPs with speeds up to 21 ppm in black and 14 ppm in color. ⁶
- Enhance efficiency and productivity with easy-to-download applications, including Scan to Network, Scan to Email and Scan to PDF.
- Quickly scan both sides of a page in less than 5 seconds with the 50-sheet duplex automatic document feeder. ⁷

- Multifunction Workflows

Why a Lexmark Business Inkjet?

The OfficeEdge series is a new category of devices engineered with enterprise-level, laser-quality components to deliver long-lasting and highly-reliable performance.

- Laser-quality color printing at a 50% lower printing cost.⁴
- Fastest time to first page compared to lasers in its class means less time waiting to complete a job.⁸
- Productivity tools help reduce paper and improve workflows.
- Integrates seamlessly into most business IT environments with PCL and PostScript support.
- Simplify monitoring and administration of multiple devices through the embedded web server and Lexmark Universal Print Driver.

¹ Based on testing results conducted by Buyers Lab Inc. on the OfficeEdge Pro5500. All OfficeEdge Series products are built with the same components resulting in similar performance.

² When used with a wireless-N enabled router. Compatible with Wi-Fi CERTIFIED IEEE 802.11 b/g/n routers.

³ The second paper tray comes standard with the Lexmark OfficeEdge Pro5500t.

⁴ When comparing cost-per-page with most color laser MFPs below \$500 US dollars (October 2011).

⁵ Standard pages composite average based on ISO/IEC 24711 when printing continuously on a Pro5500 printer. Actual yield varies considerably based on factors such as printed content and printer model. See www.lexmark.com/yields.

⁶ Average of Estimated Saturated Throughput from the Office Category Test for the default simplex mode. Determined in accordance with ISO/IEC 24734. Full report available at www.lexmark.com/ISOspeeds.

⁷ When scanning a multi-page document in mono 300 dpi, standalone mode to a USB flash-drive in PDF format. Excludes first page scan time. Actual scan times may vary based on factors such as media card and PC performance.

⁸ Based on testing results conducted by Buyers Lab Inc. on the OfficeEdge Pro5500 using the host-based driver compared with competitive products in its class. The competitive class can be defined as "desktop, laser/LED multifunction printers with a purchase price under \$500 tested by BLI". All OfficeEdge Series products are built with the same components resulting in similar performance.

⁹ XL cartridges not included. Available for aftermarket purchase.

¹⁰ "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.

¹¹ "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.
