Xerox® DocuMate® 632

The DocuMate® 632 is a departmental duplex flatbed scanner with a 100 page Automatic Document Feeder (ADF) that scans up to 80 images per minute (ipm) in duplex mode. The A4/legal flatbed is the only departmental scanner that can be programmed to automatically scan to 99 customisable applications or devices. Documents can be converted to text-searchable PDF in one easy step.

The Xerox® DocuMate® 632 is the perfect solution for company wide scanning solutions and enables businesses to achieve high levels of productivity by distributing fast, cost-effective departmental scanners throughout the organization.

Work Smarter

The DocuMate 632's powerful software, robust functionality and hardware specifications deliver the speed and quality for departmental scanning. The DocuMate 632 offers file format flexibility including text-searchable PDF.

The included Kofax VRS Basic software provides capabilities such as auto exposure and wide angle de-skew. VRS also helps improve the accuracy of recognition software, thereby reducing the need for manual correction of intelligent character recognition and OCR results.

Vertical Market Solutions

Regulatory compliance requirements have dramatically increased the need for companies to implement secure and reliable records for management and document capture solutions. Departmental scanners are ideal for document management in small to mid volume applications and may also be used to complement higher volumes products in distributed scanner settings.

Document capture solutions have become essential to meet the everyday document imaging needs of businesses in the finance, insurance, health care, transportation and education markets. Likewise, many law offices, courts, clients and administrators handle and manage substantial quantities of paper. Documents are the substance of communication, reference, negotiation and execution of contracts, laws and evidence. Fast reliable and cost effective document imaging solutions like the DocuMate 632 provide almost immediate return on investment when implemented in legal offices.

Visioneer® OneTouch®

Visioneer® OneTouch® is an easy to use utility that connects the DocuMate® scanner with a powerful set of scanner settings to greatly improve the efficiency of your workflow – so that with one touch, the document is scanned automatically to email, Word, your printer, or simply a file folder.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the DocuMate 632 with industry-leading document management software, such as Microsoft SharePoint®, DocuWare® and Xerox® DocuShare® – forming an easy to use workflow from paper to a selected destination.

A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

Kofax® VRS™ technology

Visioneer OneTouch with Kofax VRS is an integrated software solution that combines the ease of Visioneer OneTouch scanning, with the superior image quality achieved with Kofax VRS. Kofax VRS is an award winning patented technology that automatically insures the best possible image quality and OCR accuracy for scanned document images. As pages pass through the scanner, VRS performs a multipoint inspection of each document, instantly checking and adjusting alignment (skew), brightness, contrast and image clarity.

Kofax VRS Pro Upgrade

An upgrade from Kofax VRS Basic to Kofax VRS Professional is available which provides additional features such as, advanced clarity, auto color detect, auto rotation, blank page detection, bleed through detection and lots more.

Text Searchable PDF

Transform volumes of paper or photos into organized digital files that can be quickly found, used and shared. In searchable PDF format, the user can instantly search documents for keywords or phrases. This provides additional archival benefits beyond traditional storage, and the widely accepted PDF format lets everyone view and print documents – on any computer.

Nuance OmniPage® Pro

Provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing program.
