Standard

It's a printer, a scanner, a copier and a PhotoCapture Centre, all in one. Don't be fooled by its compact, sleek profile design, the DPC-350C is crammed with features and functions that make it an excellent printer or stand alone copier for home use.

A 2.0" colour LCD screen lets you view your photos before you print

Stand alone flatbed copying at up to 600 x 1,200dpi resolution

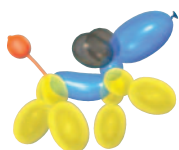

Direct photo printing via camera using PictBridge or via memory cards

DPC-350C

- Colour Photo Printer
- Colour Flatbed Copier
- Colour Flatbed Scanner
- Photo Printing Centre (Card reader slots, Pictbridge and USB Flash memory Drive)

The combination of direct photo printing, scan and copy functions make this machine the flexible and durable printing solution for your home or home office

Save space and money with one easy-to-use machine

The first thing you'll notice is the full colour LCD screen which, when you insert a memory card or USB stick into the PhotoCapture Centre™, means you can view your photos either individually or as a slideshow. You can also enhance, manipulate and edit your favourite shots to make sure you've got the perfect picture before you print.

High quality professional prints**

There's no need to load and reload different paper types, because the DPC-350C has two trays; one for photo paper and one for plain. Borderless photo quality printing allows you to reproduce professional photo lab quality prints direct from your digital camera or memory cards.

Brother's new print head technology produces 1.5 picolitre droplets and has the capability to accurately place these droplets onto the paper. This helps to ensure sharper and more precise prints.

- Up to 1,200 x 6,000dpi interpolated print resolution with a minimum droplet size of 1.5pl**
- Up to 30ppm* mono print speed
- Up to 25ppm* colour print speed
- Up to 100 sheet paper capacity
- Borderless printing
- Individual ink cartridges with fade resistant ink

Multi-source flatbed copying made easy

Easy to use stand alone colour copying is an invaluable addition to your office or home. With the DPC-350C you don't even have to waste time turning on your PC. Producing quality copies has never been easier as the DPC-350C

- has a flatbed design that enables bound documents to be copied quickly.
- Flatbed design
- Crisp definition at up to 600 x 1,200dpi resolution
- Stand alone copying
- Adjustable hinge

All-inclusive colour flatbed scanning

Yet another easy-to-use feature that is going to play an increasing role in the way you work. High quality definition is what you would expect from a Brother machine, and this function comes with another big advantage – all the software is included in the price. The scanning software supplied gives you access to a range of scanning features including scan to e-mail, OCR, image, file (including PDF), card and USB flash memory drive.

With the Face Filter software supplied you can adjust skin tones, remove skin blemishes and remove red eye. You can even change facial expressions.

The flatbed design of the DPC-350C enables bound documents to be copied quickly without the need of a PC, just like a stand alone copier.

- Flatbed design
- Up to 19,200 x 19,200dpi interpolated resolution
- One-touch scan to PC
- ScanSoft® PaperPort® and OmniPage® OCR software included.

Photo Paper Tray and 2.0" colour LCD

A 2.0" colour LCD screen lets you view your photos before you print. Whether you're printing A4 documents or 4" x 6" photos, you don't have the inconvenience of changing paper, as the built-in photo paper tray stores up to 20 sheets of photo paper.

* at 600 x 150dpi

** On Brother photo gloss paper - BP-61GLA at 6,000x1,200dpi

Direct Photo Printing

With digital photography becoming more and more popular, the DCP-350C has all you need to enjoy the benefits of this new technology. Its digital photocapture centre allows memory cards or USB flash memory drive to be read without a plug-in card reader or the inconvenience of using the software on your computer to download your pictures. You can study a complete selection of thumbnails before you make your print selection, saving time and expense. You can also save and retrieve files via your USB flash memory drive or memory card, making this an additional and convenient data transfer tool. The USB flash memory drive or memory card is simply shown as an additional drive on your PC, allowing you to save and retrieve photos and documents with ease.

The DCP-350C is compatible with nine of the most popular memory cards:

- Memory Stick™
- Memory Stick Pro™
- MultiMediaCard™
- Secure Digital™
- Secure Digital High Capacity™ (SDHC)
- xD Picture Card
- xD Picture Card Type M
- Compact Flash
- xD-Picture Card Type H

Additionally, you can print your photos directly from your digital camera using the PictBridge interface.

Innobella ink and paper

Designed to work with Brother's range of inkjet Multi-Function Centres®, the Innobella original consumables range utilise state of the art technology to produce top quality prints time and time again.

Separate Innobella ink cartridges

Brother colour Multi-Function Centres® come complete with four separate colour Innobella LC-57 ink cartridges with fade resistant Innobella inks. Unlike some other colour multi-function products, when a single colour runs out you only replace that colour. Another feature from Brother that saves you time and money and is better for the environment.

The DCP-350C comes with a smaller droplet size of 1.5 picolitre. When used with genuine Brother BP61 glossy photo paper and Innobella LC-57 ink cartridges, the result is a higher quality print with better definition.

Capillary Tube Printing Technology

Brother's revolutionary Capillary Tube Printing Technology provides ink from the DCP-350C's four separate cartridges direct to the print head, allowing for a much lower profile machine. This results in smoother, quieter operation and ink cartridges that are quicker and easier to replace. Additionally because of the lighter printhead, the DCP-350C can run at a lower power level saving you money and is better for the environment.

Environmentally Friendly Features

International Standards:

ISO 14001

As one of the Australia's leading Multi-Function Centre manufacturers, Brother takes its environmental responsibilities very seriously. Brother Multi-Function Centres® are ISO 14001 compliant meaning that they are manufactured in accordance to international environmental standards.

Cartridge Recycling

Brother is proud to be a Major Sponsor of the 'Cartridges 4 Planet Ark' recycling program. This Australia wide program recycles printer cartridges with zero waste to landfill, guaranteed. Brother are committed to supporting initiatives which help to ensure the long term sustainability of the environment.

Use genuine Innobella inks and paper for optimal results
