DCP-385C

The DCP-385C integrates a range of functions, including colour printing, copying and scanning, into a single, stylish and compact machine – saving space and easing workflow.

With a 3.3" widescreen colour LCD, operating the machine is now a breeze. You can easily access copy and scan settings, and even preview, edit and enhance your photos at the touch of a button, without the use of a PC. Additionally, printing borderless photos directly from media cards, USB flash memory drives, or PictBridge™ compatible cameras is now possible by simply connecting them to the MFC, while the dedicated photo paper tray makes switching between photo paper (4x6") and A4-sized paper fast and easy.

DCP-385C is capable of fast print speeds of up to 30ppm for monochrome and 25ppm for colour to help improve productivity and save time. Brother's Innobella™ ink and photo paper, combined with our print technology that enables droplet sizes as small as 1.5pl, give you rich, vibrant photos and professional-looking colour documents.

Furthermore, a 4-cartridge ink system helps lower running costs by replacing only the colour cartridge that has run out. With all these great features and more, you'll always stay ahead with Brother at your side!
