

LASER SHOT LBP6650dn

Mono Laser Network Printer

Canon
advanced simplicity®

Powerful print performance in one compact unit and extensive network connectivity for seamless workflow.

WORKHORSE

Give your business extra impact with this powerful printer which prints at speeds of up to 33ppm. You can also save time with a First Print Out Time of just 6 seconds or less so your printer is always ready to spring into action to limit any business downtime.

The LBP6650dn also allows you to share printing resources across all systems with its network ready capability, PC5e/6 and optional postscript level 3 support. Plus with Canon's unique UFR II this printer will ensure seamless integration into your existing IT print workflows.

With auto double sided printing it will also mean that not only do you save time, but you also save money on paper costs too, plus you'll be doing your part for the environment.

Key Features

High Definition Print

- The LASER SHOT LBP6650dn is equipped with a laser printer engine of 600 x 600 dpi optical resolution.
- Its gradation control enables high-definition print at a resolution equivalent to 2400 x 600 dpi*.

Integrated Network

- The LBP6650dn is network ready meaning the printer can be easily shared between any small office workgroups.

High Performance Printing

- Support for PCL5e/6, UFR II and optional Postscript level 3 ensure the versatility of the printer and allow it to work across many platforms

All-in-one cartridges

- The LBP6650dn utilises an all-in-one cartridge design which means an "Intermediate Transfer Unit", "Photosensitive Drum", and "Waste Toner Container" that are normally individual consumables, are all combined, meaning less consumables to stock and less fuss - saves you time and money.

Low Power Consumption and Quick Start Up

- By adopting Canon's unique On-Demand Fixing System, the LBP6650dn achieves low power consumption and quick start-up of just 10 seconds or less when the printer is turned on. This enables efficient instantaneous heating of the fusing heater only before printing, saving warm-up time. The LBP6650dn is always ready to print when you are.
