

Ultra Compact Scanner with Vertical Scanning and Up to 4800 dpi¹

Ideal for customers looking for a compact, easy to use, and yet powerful scanner to scan documents and photos.

- Auto Scan Mode automatically adjusts settings by detecting what is being scanned.
- High-Resolution and High-Speed scanning.
- Advanced Z-Lid™ expansion top for scanning bulky items.
- Just one USB cable for data and power.

Scanning Made Simple

Five buttons automate the most common scanning tasks. Auto Scan Mode automatically adjusts settings by detecting what is being scanned and then saving to an appropriate format (JPEG or PDF). Two buttons simplify scanning PDF files, with a new button used to complete a multi-page PDF file.

4800
× 4800 dpi

Produce Beautiful, Detailed Scans

The optical resolution of the LiDE 210 is up to 4800 x 4800 color dpi.¹ Supports 48-bit color input/output. A letter size color scan is ready in approximately 10 seconds.²

Advanced Z-lid

Easily Scan Bulky Items

Scanning bulky items, such as magazines, is easier and more convenient with the Advanced Z-lid™ expansion top. The lid lifts vertically, and then lies flat, for clear scans of thick originals.

USB Powered

Upright Scanning

USB Powered

About the size of a legal pad, the compact and stylish LiDE 210 fits even the most cramped workspace. The LiDE 210 can also be operated while on its side by using the included scanner stand. One convenient cable to a computer provides both a Hi-Speed USB 2.0 connection and power. No bulky power adapters!

PDF

Auto Document Fix

Powerful Software Included³

MP Navigator EX software makes it easy to scan photos and documents. Features include utilities for OCR text data conversion, classify and view images in categories and adding passwords to PDF files. Auto Document Fix automatically sharpens text and maintains image contrast within documents.

Environmentally Conscious
www.usa.canon.com/green

- **USB Powered** – The LiDE210 can start working as soon as it is plugged into a computer, no AC adapter is needed.
- **ENERGY STAR®, RoHS Compliance** – ENERGY STAR® qualified products automatically enter low-power mode when not in use.
- **Hardware Recycling Program, Refurbishing Program** - The Canon refurbishing facility manages all waste stream processes for Canon products, so Canon has full control over recovery & salvage for this product line, not 3rd party vendors.

Creative Park

Don't forget to tell your customers about the Creative Park website from Canon. They can scan their old photos into their computer, and then use them to create scrapbooks and other unique projects. It's all free!

Why Choose the CanoScan LiDE 210 Color Image Scanner

Over the Epson Perfection V33 Photo

- Fast document scanning – letter sized document in approximately 10 seconds.²
- Fine tune photos with a variety of tools: correct dust & scratches, grain, fading, backlight, and gutter shadow. Auto Document Fix sharpens text and maintains image contrast within documents.
- Protect sensitive information by setting passwords. Limit access to PDF files, or restrict printing / editing of PDF files.
- No messy cables or bulky AC adapter: one Hi-speed USB cable connection for both data and power (cable included).

US-based Customer Support	N/A

¹ Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

² Color document scan speed is measured with ISO/IEC 24712 Newsletter. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size, etc.

³ System requirements may vary by application.

⁴ Warranty programs are subject to certain conditions and restrictions. See www.usa.canon.com/support for details.
