

Vioneer Mobility Air

Cordless & Wireless Mobile Colour Scanner

vioneer.
mobility | AIR

Wi-Fi transfers to PC, Mac, Android, iOS, and the Cloud

The Freedom of True Mobility

Now you can scan your photos, documents, receipts, plastic cards, nearly anything to PDF or JPG with a truly untethered scanner. Your scanned files are stored on any standard USB flash drive or SD memory card; but we don't include just any SD memory card... the Mobility Air comes with Eye-Fi, an award-winning memory card.

Now you can scan to JPG* and upload the scanned files wirelessly to your Mac® or Windows® machine, Android® phone or tablet or Apple® iPhone®, iPad® or iPod® Touch over your local Wi-Fi access point. You can even scan to the Cloud, to over 25 destinations that include Facebook, Evernote, Shutterfly and more.

4GB Eye-Fi Card with built-in Wi-Fi (included)

- Instantly upload JPG files from your scanner to their destination
- Upload directly to the Cloud, to over 25 social, networking and photo sharing web sites
- No hotspot, no problem – Eye-Fi card becomes a hot spot in Direct Mode

Mobility

- Scan directly to Apple iPhone, iPad, iPod Touch, Android phones & tablets
- Android and iOS apps free to download
- Email or upload scans to Facebook, Evernote, Picasa, Flickr

Functionality

- 300 dpi simplex scanning in colour or black & white
- Scan to PDF and JPG files
- Rechargeable battery, 300 pages per charge

Simplicity

- Cables, drivers and computer no longer needed
- Store scanned pages on SD card or USB flash drive
- AutoLaunch™ - scanning begins as soon as you insert your page

Even if you have a mobile scanner, you are not truly mobile unless you have the freedom to connect to your mobile devices instantly without the need for cables and adapters... unless you have Mobility Air!

Scan documents, receipts, photos, business cards, plastic ID cards... anywhere!

Vioneer Mobility Air

Cordless & Wireless Mobile Colour Scanner

Scan and send over WiFi to PC, Mac, Android, iOS & the Cloud

Vioneer Mobility Air makes scanning over wireless (WiFi) a reality because we have included a 4GB Eye-Fi SD card. Your scanned images are stored on the Eye-Fi SD card and then Eye-Fi uses your wireless network to effortlessly transfer these images* to your Windows or Mac computer, Android or iOS smartphone or tablet, as well as to over 25 on-line destinations such as Evernote, Picasa, Facebook and Flickr.

Not near a wireless network or hotspot? No problem. If the Eye-Fi card can't connect to a hot spot, it becomes one on its own and transmits your scanned files... this is called Direct Mode.
