

EVERY TASK, EXPERTLY HANDLED

TASKalfa 2550ci offers excellent paper-handling capabilities. It has a standard document processor that scans up to 48 ipm, while a job separator ensures fax and printer

output stay separate. The 1,100-sheet capacity cassette can be expanded up to 2,100 sheets with two optional 500-sheet feeders. Documents can also be finished to professional perfection using the 500-sheet finisher with stapling function.

PRODUCT HIGHLIGHTS TO MEET YOUR REQUIREMENTS:

- ▶ Up to 25/25 pages per minute A4 in b/w and colour
- ▶ Excellent image quality due to advanced colour technology
- ▶ Time to first copy: 9.9 seconds in colour
- ▶ Up to 2 GB RAM + 160 GB HDD memory and storage
- ▶ Standard network colour printing and scanning
- ▶ Expandable fax functions: dual fax, network fax and internet fax
- ▶ Standard 50-sheet reversing document processor and 30-sheet job separator
- ▶ Standard paper capacity of 1,100 sheets expandable up to 2,100 sheets
- ▶ Easy-to-install hanging 500-sheet finisher
- ▶ Long-life components provide exceptional efficiency and reliability

TASKalfa 2550ci COLOUR MULTIFUNCTIONAL FOR A3 FORMAT

The TASKalfa 2550ci incorporates extremely durable components that guarantee efficient and reliable operation to meet the demanding requirements of busy office environments. The TASKalfa 2550ci provides effective productivity and maximum flexibility whilst ensuring minimum impact on the environment.

TASKalfa 2550ci

COLOUR MULTIFUNCTIONAL FOR A3 FORMAT

▶ print ▶ copy ▶ scan ▶ fax

THE COMPACT ALL-ROUNDER
FOR COLOUR IN A3

VERSATILITY AND QUALITY TO MATCH BIG AMBITIONS

Print, copy, scan and fax. The TASKalfa 2550ci is specially designed for ambitious workgroups who demand high flexibility in functionality. Reliable, user-friendly and conveniently compact, it packs in all the capabilities you need to maximise the efficiency of your team's document management.

INTUITIVELY USER-FRIENDLY

All functions are accessible via a large, colour touch panel with intuitive controls and menu structure, making it exceptionally easy to use and enhancing productivity. For flexible, straightforward integration with every IT environment, TASKalfa 2550ci provides multiple LDAP server support.

What's more, because the full KYOCERA TASKalfa portfolio shares a common interface, you can easily add different TASKalfa devices to suit the precise needs of each workgroup.

ADVANCED FUNCTIONALITY

Thanks to a range of intelligent technical features, this versatile device delivers a comforting level of efficiency and ingenuity. To reduce paper waste, you can print on both sides with the standard duplex unit, or scan your documents via the 50-sheet document processor and send them as digital files. If colour toner runs out, you can still print up to 500 sheets or receive faxes in b/w thanks to the Monochrome Print Function.

To save time and huge frustration, it also has a 'job skip' function to prevent simple print errors holding up all jobs in the system. For example, if the wrong paper size or media has been selected, these jobs are automatically moved to the back of the queue, allowing other jobs to continue printing.

COLOUR QUALITY, CUSTOMISED FUNCTIONALITY AND SECURITY

GET THE EDGE WITH HIGH-QUALITY COLOUR

Advanced colour technology ensures your business communications project a premium corporate image. Take advantage of rich colour consistency, extra-sharp contrast and outstanding reproduction on colour documents.

From client forms and sales charts to presentations and office flyers, TASKalfa 2550ci delivers striking image clarity with smooth shades and fine colour gradation on all printouts.

ADAPTS TO YOUR BUSINESS NEEDS

HyPAS™ KYOCERA's open software development platform, HyPAS™, delivers a remarkable business benefit: it allows you to integrate the device into your workflow to meet the exact requirements of your business – transforming your TASKalfa 2550ci into a customised business tool that goes beyond the device's standard functionality.

Configured to interface with your relevant business applications directly at the control panel, it then provides one-touch operations for your key processes.

Extra efficiency

Work seamlessly from paper documents to digital with optional one-click scan-to-me. Just insert a document, press a button, and create a searchable OCR, PDF or Word document.

Added security

You also have the option to authenticate at the device using customised ID, allowing collection of private printouts from any device in the company. The confidential document is stored safely on the server, accessible only by specified users.

HyPAS™ makes these and many other add-on features possible, saving time, increasing efficiency and boosting productivity more reliably than ever before.

SCAN TO SIMPLICITY

Handling scanned digital files couldn't be easier. With functions including scan-to-server, scan-to-email, scan-to-folder or scan-to-USB, as well as SMB browsing, the device gets your documents wherever you need them instantly.

Scanning and saving as PDF, JPEG, TIFF or XPS files the TASKalfa 2550ci can achieve almost lossless data compression. So you can reduce data volume on your network by simply scanning and saving unusually large documents in high compression – such as those with colour photos and other supporting material.

SECURITY AND PEACE OF MIND

With data protection a major concern in modern business, TASKalfa 2550ci safeguards against a wide range of security risks with IPsec, IPv6 and PDF encryption as standard. Furthermore, KYOCERA's Data Security Kit effectively deletes all data stored on the hard disk during the print, copy or scanning process.

Extend your document security even further by selecting the optional Card Authentication function. This way you can protect intellectual property from unauthorised individuals within as well as outside your organisation.

COUNT ON US

As one of the leading manufacturers of office document solutions, KYOCERA is committed to delivering consistently high-quality products and services. We not only provide you with the most reliable hardware and software, but also exceptional service, comprehensive consulting and tailor-made financing. Whatever your needs, you can count on us.
