

WORKSET TECHNOLOGY. THE ABILITY TO PROCESS FASTER.
THE TOOLS TO WORK SMARTER.

WorkSet streamlines processing with *Send Once, RIP Once, and Print Many* technology. That means print commands are held in queue at the printer, not in the network. Whether you're printing one or 50 sets, from RAM or hard disk, WorkSet saves time by processing your document once, not over and over.

WorkSet also handles high volumes from busy workgroups.

RIP-While-Printing prints one job while processing the next, for exceptional throughput.

Both office and graphic arts users will appreciate WorkSet's true Adobe PostScript 3 on-board. Adobe PostScript sets the standard for document fidelity and quality. This latest version is included at no additional cost.

CHOOSE YOUR SPEED—FAST, FASTER, OR FASTEST.

The DocuPrint N24 can easily handle the needs of large workgroups. Unlike most network printers, it can maintain 24 ppm rated speed for both single-and double-sided documents. Or at 32 ppm, the DocuPrint N32 keeps up with the workload of an entire department. And for larger departments with big printing volumes, the DocuPrint N40 gets the job done at a breakthrough 40 ppm.

DESIGN YOUR OWN PRINTER.

All three of these DocuPrint network printers offer exceptional flexibility by adding customized paper-handling and finishing options. Here are some of our most popular configurations:

The two-tray, tabletop version has true Adobe PostScript 3 and 10BaseT Ethernet on-board. An optional duplex module delivers fast, economical, two-sided printing.

A console configuration includes a duplex module and boosts paper capacity with a 2500 sheet feeder. An optional 100 envelope feeder makes fast work of large mailings. Or add a 10-bin mailbox with two operational modes: Mailbox mode delivers jobs into an assigned user's bin. Sorter destination (collation) mode sorts and separates multiple sets.

Add a 2000 sheet finisher and a 2.1 GB (or greater) hard drive to convert any one of these printers into the most productive system of all. Print, collate, and staple sets up to 50 pages. Three selectable staple positions work with more document formats.

WORKSET FEATURES THAT SAVE WORK.

Here are just some of the convenience features that simplify printing and save steps:

SEND CONFIDENTIAL DOCUMENTS

WITHOUT WORRY. *Secure Print* holds your document at a shared network printer until you enter a password at the printer console.

THE SHORTEST DISTANCE BETWEEN YOU AND YOUR WORK.

When you're away from the office, use the Internet and *MaiLinX* to help you get your work done.

The *Remote Printing* feature lets you access any printer on the network so that finished documents will be ready and waiting when you return to the office.

GET E-MAIL FROM YOUR PRINTER. *MaiLinX* can also notify a designated person if there are problems such as a paper jam or low toner. With *E-mail Alerts*, the printer can automatically send a message to the system administrator who can then correct the problem before it impacts productivity.

ECONOMIZE ON TONER. The *Toner Saving* feature provides draft-quality output with a 67% reduction in toner usage.

PROOF PRINTS EASILY. When printing multiple sets, *ProofPrint* saves steps. Send your job once, and the printer RIPs and prints the first set. After you review your document, just release the rest at the printer.

SELECT MEDIA BY SIZE AND TYPE, NOT TRAY. No more guessing which tray holds the paper size or media you want. Specify your choice through the driver, and its *Automatic Tray Selection* will find and pull the right media for you.

PROTECT TRANSPARENCIES WITH DIVIDER SHEETS.

Through the print driver, you can automatically insert *Separator Sheets* between transparencies or other documents.

PRINT THE WAY YOU WANT TO PRINT.

SAVE PAPER AND FILE SPACE WITH FAST TWO-SIDED PRINTING.

EDGE-TO-EDGE PRINTING lets you fit more information on a page—

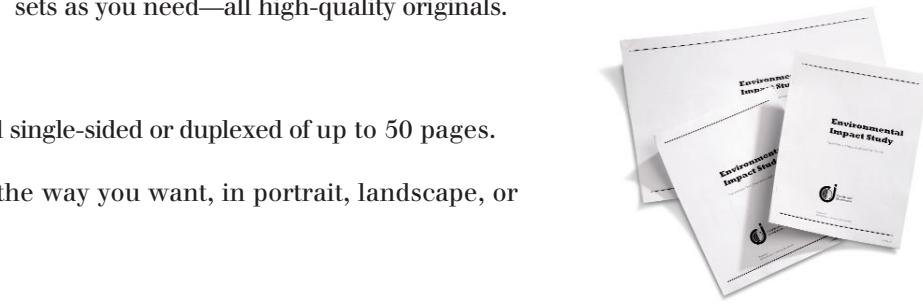

prints forms from legacy or full bleed images onto a single page without having to spend time resizing the images.

JOB OFFSETTING makes it easy to find your document in a stack of printed pages. Print as many collated, sorted, and stapled sets as you need—all high-quality originals.

STAPLE SETS—printed single-sided or duplexed of up to 50 pages.

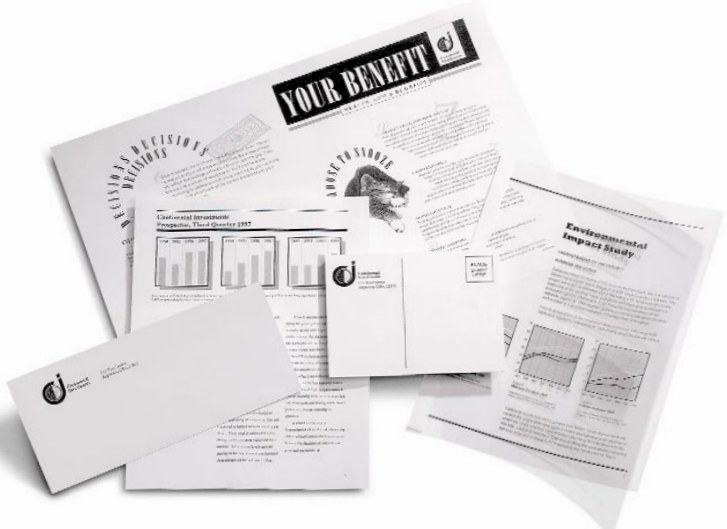

Three staple positions finish the way you want, in portrait, landscape, or booklet formats.

A FULL RANGE OF PAPER STOCKS, SIZES, AND

WEIGHTS ARE SUPPORTED—from postcard to 11x17/A5, and from

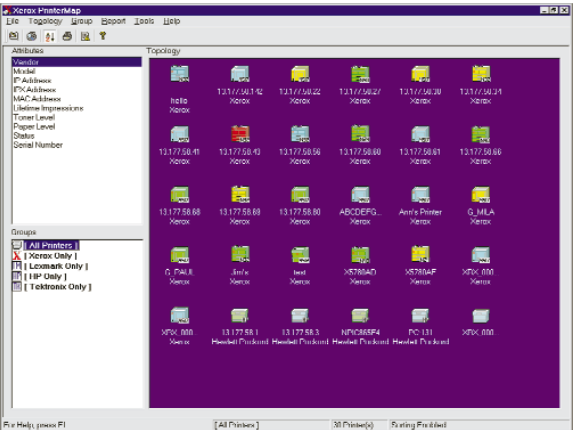

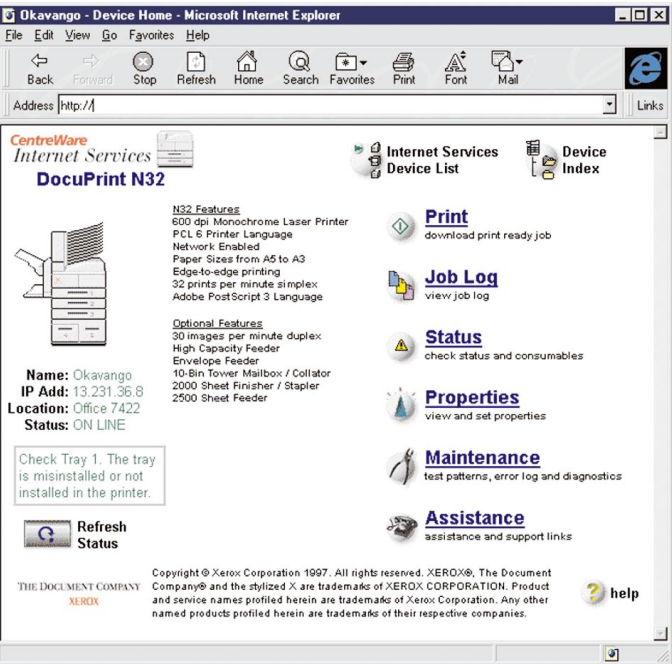

16 to 44 lbs./60 to 165 gsm—giving you true flexibility.

NETWORK PRINTER MANAGEMENT SOFTWARE.
THE SOLUTION YOU NEED TODAY.

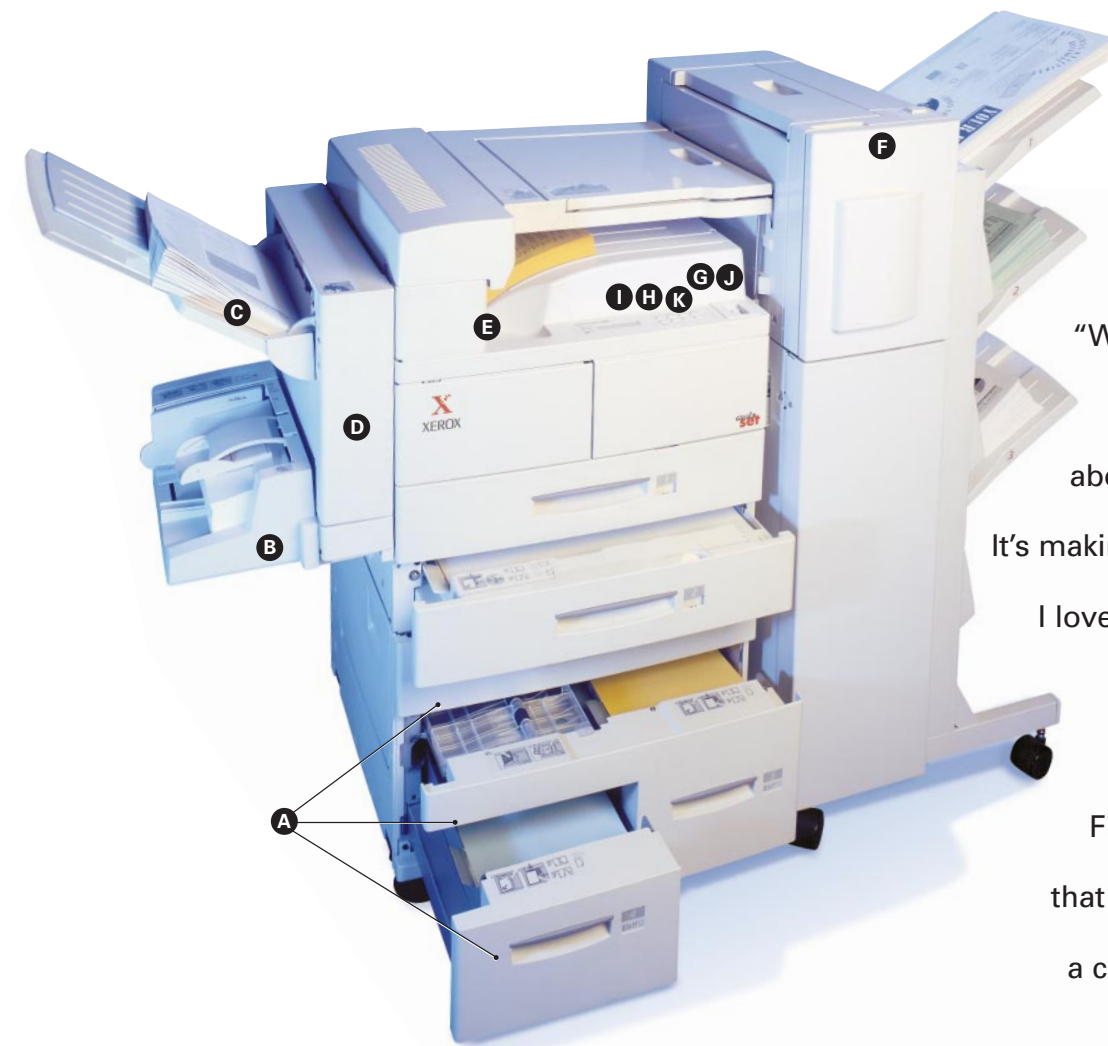

Point-and-click installation. We make it simple to install and configure your Xerox printers in no time with CentreWare DP for Novell NetWare and Windows NT and CentreWare SunOS™/Solaris™. System Administrators can easily change printer settings, or check printer and paper status.

Remote management made easy. Manage from anywhere in your network with CentreWare Internet Services. Our Web technology is embedded in WorkSet, and gives you immediate information about a printer using your favorite web browser. No extra hardware or software is required.

Proactive management in multi-vendor environments. The ultimate in management productivity, PrinterMap software gives you a single view of all SNMP-based printers or groups of printers, regardless of vendor. Printer groupings, settings, and alerts can be easily customized. PrinterMap's report function makes it simple to plan and balance usage loads among your network printers.

HIGH-PERFORMING WORKGROUPS.

"We bought (a new DocuPrint N32) about a month ago. It's making my life EASY! I love the built-in Web administration, and it's reliable. Finally, something that WORKS the way a company claims... and then some."

Flexible paper-handling and finishing options:

- A** 2500 sheet feeder, including 11X17 (A3) in tray 3*
- B** 100 envelope feeder*
- C** 200 sheet output; face-up
- D** Duplex module*
- E** 500 sheet output; face-down, offset and collated
- F** 2000 sheet finisher and 3 position stapler*

* Optional features

More power for busy networks:

- G** High-capacity hard disk drive* (2.1 GB or greater)
- H** Standard 24 MB RAM
- I** 8 MB Flash SIMM for downloading and storing fonts, forms and macros*

Fast, easy printing of complex documents:

- J** Adobe PostScript 3
- K** PCL 6

PRINT SPEED

- DocuPrint N24
 - Up to 24 pages per minute (ppm) simplex
 - Up to 24 images per minute (ipm) duplex
- DocuPrint N32
 - Up to 32 pages per minute (ppm) simplex
 - Up to 50 images per minute (ipm) duplex
- DocuPrint N40
 - Up to 40 pages per minute (ppm) simplex
 - Up to 32 images per minute (ipm) duplex

PRINT RESOLUTION

- 600 x 600 dpi
- Patented Xerox Quad Dot halftoning

PAPER INPUT—STANDARD

- Two 500 sheet trays
 - Tray 1: 8.5 x 5.5 in., letter, legal, folio, ledger, executive, A3, A4, A5
 - Tray 2: letter, legal, folio, ledger, executive, A3, A4
 - Paper weights: 60 to 105 gsm (16 to 28 lbs.)
- 50 sheet bypass feeder
 - 8.5 x 5.5 in., letter, legal, folio, ledger, executive, A3, A4, A5, A6, international postcard, envelopes
 - Paper weights: 60 to 165 gsm (16 to 44 lbs. Bond/90 lbs. Index)

PAPER INPUT—OPTIONAL

- Duplex module
 - 8.5 x 5.5 in., letter, legal, folio, ledger, executive, A3, A4, A5
 - Paper weights: 60 to 105 gsm (16 to 28 lbs.)
- 2,500 sheet feeder
 - Tray 3: 500 sheets, letter, legal, folio, ledger, executive, A3, A4
 - Trays 4 and 5: 1,000 sheets each, letter, executive, A4
 - Paper weights: 60 to 105 gsm (16 to 28 lbs.)
- 100 envelope feeder
 - C5, DL, monarch, com-10

PAPER OUTPUT—STANDARD

- 500 sheet face down, offset and collated
- 200 sheet face up

PAPER OUTPUT—OPTIONAL

- 2,000 sheet finisher/stapler (3 bins)
 - 50 sheets per stapled set, 3 staple positions
 - Paper weights: 60 to 105 gsm (16 to 28 lbs.)
- 10 bin mailbox
 - Modes of operation: mailbox and collation
 - 100 sheet capacity per bin
 - Paper weights: 60 to 105 gsm (16 to 28 lbs.)

DUTY CYCLE

- DocuPrint N24
 - Up to 100,000 pages per month
- DocuPrint N32
 - Up to 150,000 pages per month
- DocuPrint N40
 - Up to 200,000 pages per month

CONTROLLER

- Intel i960HD 66 MHz superscalar processor
- High capacity hard disk drive (min. 2.1 GB - optional) for storing resources, fonts and macros
- Memory
 - 24 MB RAM, upgradable to 128 MB
 - 8 MB Flash (for system firmware)
 - 8 MB Flash SIMM (optional) for downloading and storing fonts, forms and macros
- Xerox WorkSet Technology
- Embedded Internet server
- SNMP, industry-standard MIBs and Xerox extended MIBs

ELECTRICAL

- Available in two models
 - 110 VAC, 50/60 Hz
 - 220/240 VAC, 50/60 Hz
- Sleep mode, ENERGY STAR® compliant

PDLs, FONTS AND UTILITIES

- PCL 5e and PCL 6 emulations
 - 10 Microsoft TrueType fonts
 - 55 Intellifonts
 - 1 PCL compatible bitmap font
- Adobe PostScript 5 with 35 resident Adobe Type 1 fonts and 110 downloadable soft fonts
- Auto emulation switching between PCL and PostScript
- EuroFont Symbol resident

CONNECTIVITY

- Ethernet 10Base2 and 10BaseT (built-in)
- Ethernet 10/100BaseT Interface Card (optional)
- Token Ring Network Interface Card (optional)
- Network Operating Systems
 - NetWare 3.12, 4.x, 5.0
 - Windows NT 3.51, 4.0
 - TCP/IP
 - DLC/LLC
 - Windows for Workgroups and Windows 95/98
 - NetBIOS/NetBEUI
 - AppleTalk (EtherTalk, TokenTalk)
 - IBM LAN Server 5.0, 4.0
 - TCP/IP
 - UNIX (SunOS™, Solaris™, HP-UX, IBM/AIX, SGI, DEC)
- IEEE 1284 bi-directional parallel
- Serial RS232-C

DRIVERS

- Windows 3.1, 95/98, NT 3.51, NT 4.0
- OS/2 and OS/2 Warp
- UNIX (Sun Solaris™, SunOS™, HP-UX, IBM, AIX, SGI, DEC)
- Macintosh (System 7.0, System 8.0)

OTHER CLIENT SERVICES

- SAP R/3 support, IPP support, Web-based printer administration, MailLinX

MANAGEMENT AND CERTIFICATION

- Xerox CentreWare
 - CentreWare DP (Novell NetWare, Windows NT)
 - CentreWare SunOS™/Solaris™ Services
 - CentreWare Internet Services
- Xerox PrinterMap
 - Windows 95 and NT
 - Compatible with CentreWare DP, MarkVision, and JetAdmin
- Solaris™ Ready certified
- PrintXchange certified
- DAZEL, DOME certified
- Microsoft certified (post launch)
- VIPP supported
- Year 2000 compliant

WORKSET CONVENIENCE FEATURES

- MailLinX with Remote Printing and E-Mail Alerts, Secure Print®, Proof Print®, Draft Mode/Toner Saving, Separator Sheets, Edge-to-Edge Printing, Auto Tray Select, N-Up, Non-Standard Paper Sizes, Print Anyway, Smart Jam Diagnostics, Load While Printing

THE HIGH-PERFORMANCE
ALTERNATIVE FOR

WE'RE
CHANGING
WHAT
YOU THINK
A NETWORK
PRINTER
CAN DO.

With network printing today, speed isn't everything. But it's a sure sign of high performance. So DocuPrint N24, N32, and N40 printers give you a choice: fast, faster, fastest.

Xerox WorkSet technology is part of every N Series machine. So processing time for printing multiple originals is streamlined. Networks are less burdened. And exclusive WorkSet tools let everyone work smarter.

Workgroups get more, including true Adobe PostScript 3, resident Eurofont Symbol, MailLinX with Remote Printing and E-Mail Alerts, Secure Print, and Proof Print. And full Xerox support to enable printing in SAP R/3 environments.

N Series printers are easy to install, and easy to use, easy to manage across a busy network. Network Printer Management Software includes built-in, web-based management tools that give it more ways to manage every phase, every operation.

You can customize all three models from the ground up, to suit your printing needs. From flexible paper feeder and tray options to complete finishing capabilities.

And, behind it all, is the high productivity and reliability you expect from the Xerox brand. No other name is more associated with quality reproduction. And we back our high-performance promise with an unmatched Total Satisfaction Guarantee.

We call the N Series printers high-performance alternatives. Check their affordable price tag—and try them. You'll wonder why you ever considered anything else.
