All the features
your office needs
to do great work.

The WorkCentre® Pro 412 multifunction system: **Make sure** you have the **right tool** for the **job.**

It's a wonder how the Xerox WorkCentre Pro 412, a multifunction system with a small footprint (and an even smaller purchase price), can have such a huge impact on your business.

But it does.

The WorkCentre Pro 412 provides your entire office with productive black and white printing/copying and color scanning/faxing capabilities. It gives your company affordable entry into the digital world. It saves you money. But most importantly, it makes sure your office workers have all the tools they need *to get work done.*

Quality output that makes you look good

Your documents are a reflection of your business.

With the WorkCentre Pro 412, you get excellent image quality and crisp, clear output whether you are printing, scanning, copying or faxing.

print

Multi-functionality— do it all... and do it better.

By having a single system that performs multiple office functions, the Xerox WorkCentre Pro 412 delivers cost, reliability, and productivity benefits to your office:

- Saves time by eliminating the hassle of managing multiple, redundant devices.
- Reduces costs because maintaining a single WorkCentre Pro 412 is less expensive than several separate devices.

WorkCentre Pro 412
with optional stand

Productivity tools— work more efficiently.

The WorkCentre Pro 412 is simple to learn and simple to use, so everyone in your office can benefit from all of its practical, powerful features.

- The Control Panel's intuitive display makes operating the WorkCentre Pro 412 fast and easy.
- The 30 sheet automatic document feeder efficiently handles letter/A4 and legal size paper for copying, scanning, and faxing. The output tray holds 250 sheets.
- The 100-sheet bypass tray feeds envelopes, transparencies, and other special media.
- An input tray that holds more than a ream of paper means the WorkCentre Pro 412 operates for longer periods of time without needing paper to be loaded.

Optional network printing—connect the office.

The WorkCentre Pro 412 offers a wide range of practical features you won't find with any other printer in its class:

- Get the best of both speed and quality. Twelve black and white pages per minute with razor-sharp 1200 dpi enhanced image quality.
- Capabilities like two-sided printing and offset stacking improve productivity while reducing paper waste.

Digital copying— move forward.

The advantages of digital copying will move your office to the next level of productivity.

- Copy all types and sizes of documents. The WorkCentre Pro 412 multifunction system's adjustable platen cover lets you copy books and thick originals. A 30-page document handler feeds multi-page originals.
- Electronic collation lets you produce multiple sets of collated copies without manual sorting.
- Make 2-sided copies from single-sided originals.

Color scanning— mirror reality.

Reuse or repurpose color documents and images with the WorkCentre Pro 412 multifunction system's color scanning capabilities. Just scan color documents and keep them in color for e-mailing or online viewing. You can even drag and drop scanned color images directly into your favorite PC applications.

- Scan as easily as making a copy. The WorkCentre Pro 412 multifunction system's platen makes it easy to scan all of your documents—even odd sized or delicate originals.
- Create Web content from scanned color documents and photos without writing a single line of HTML code.
- Use Textbridge® Pro OCR software to turn scanned color documents into editable, customizable files.
- Archive and manage scanned documents with PaperPort® image management software.

All the fax features you expect...

The WorkCentre Pro 412 offers the fax features you use most:

- Fax up to 50 pages at once with push-button ease using the Automatic Document Handler. Or fax from the glass for book pages and other odd-sized originals.
- No matter how much you fax, the WorkCentre Pro 412 multifunction system's 33.6 Kbps modem and 4 MB of fax memory can easily handle the workload... *and handle it fast.*
- Program up to 80 speed dial and group dial numbers to make faxing simpler and faster than ever.

...and some you don't.

- Fax in color directly to recipients with color enabled fax machines. Color documents no longer have to be limited to email.
- Using Xerox ControlCentre™ 5.0, you can set up your machine, enter phonebook data, and monitor fax usage—all from your PC. ControlCentre can also fax in its own supplies order when they run low.
